To whom it may concern:

Datalogic Mobile, Inc. does hereby attest to Northwest EMC, Inc. that the different keyboards and keypads that are used on Falcon 4410 and Falcon 4420 devices do not affect SAR tests for the following reasons:

- The Falcon 4410 and Falcon 4420 antenna paths are independent of and separate from the keyboard and keypad.
- The materials, mass and layout of the different keyboards and keypads are very similar.
- The main differences between the keyboards and keypads are the key designations and shapes.

Sincerely,

A handwritten signature in black ink that reads "Randy King". The signature is written in a cursive style with a large, stylized "K".
